

INSTALL FIREFOX

If you do not already have it installed, you have install “Firefox”, which is a free Internet browser, similar to “Internet Explorer”, “Chrome”, or “Safari”.

Step 1 – Download Firefox.

Go to this page: <http://www.mozilla.org> and click the green button to download Firefox. It will ask you where you want to save the file and you select a folder on your computer.

Step 2 – Install Firefox.

After it has finished downloading, click on the downloaded file and follow the steps and instructions to install the program.

Once it has finished, you will be able to open Firefox and navigate on the internet.

PLUGIN TO BLOCK COMMERCIALS

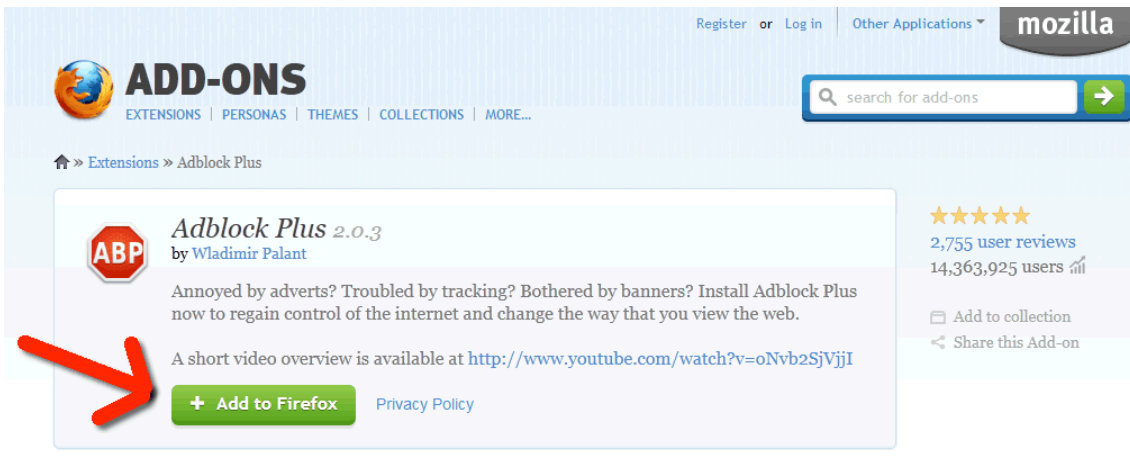

Now we are going to install a Firefox Add-On to block the commercials

Step 1

Go to the page where you can download the “add-on”: Adblock Plus:
<https://addons.mozilla.org/en-US/firefox/addon/adblock-plus/>

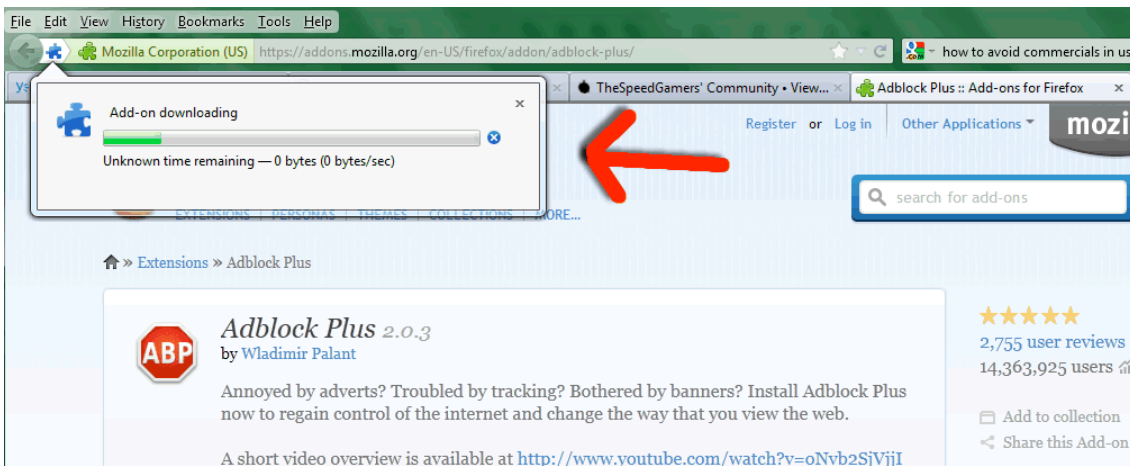

Step 2

Click on the green button that says: “Add to Firefox”

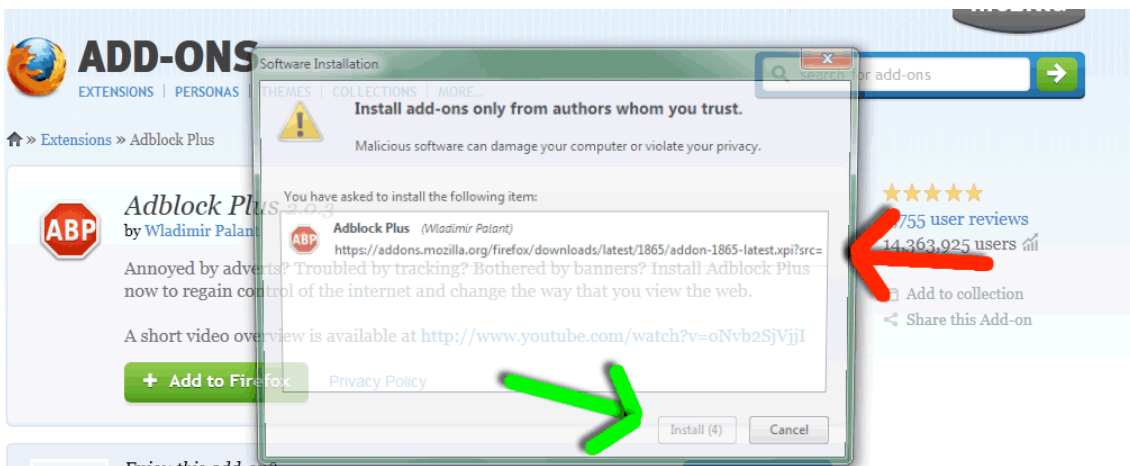

Step 3

Wait until it finishes downloading the “add-on”. You do not have to click anything, just wait.

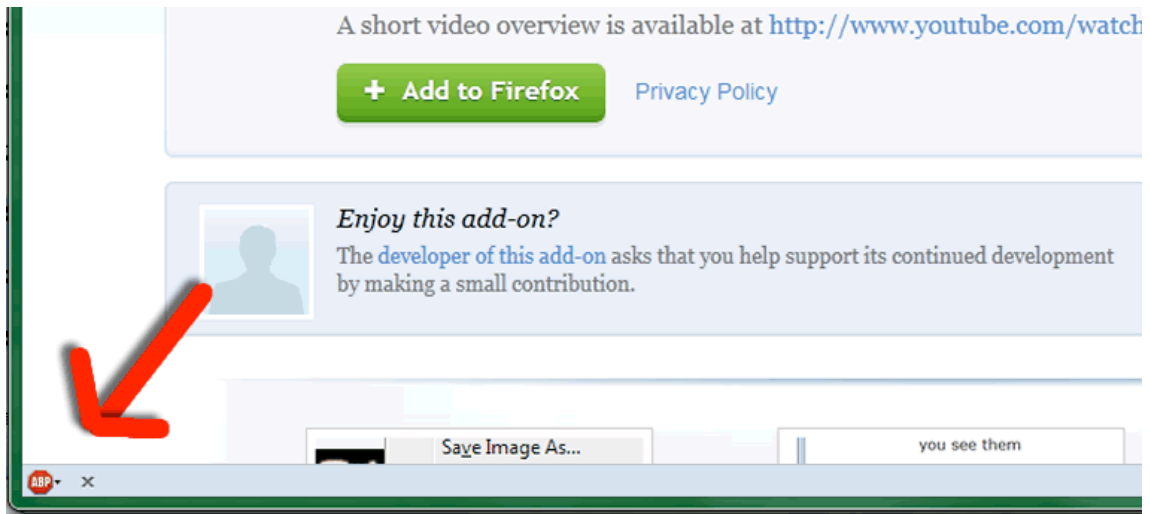

Step 4

In the window that opens up now, click “Adblock Plus” (red arrow in the image below) and then click “Install” (green arrow)

Step 5

Now close Firefox and re-open it. You will now see an icon at the bottom left-hand corner of your window. This is the Adblock Plus icon.

And that's it. It is now installed! If at any moment you would like to disable the add-on, just click the icon at the bottom of your window in Firefox and select "Disable".
